

Your help is desperately needed to help save urgent dogs at ACCT Philly!

Due to renovations taking place over an extended period of time, the Animal Care and Control Team of Philadelphia (ACCT Philly) is operating at only 50% of its normal dog kennel capacity.

What does this mean? Every large dog is considered **URGENT**. Wonderful dogs will be euthanized every day because there simply is not enough space to hold them.

What can you do? We need people to foster these animals in their homes so that they can live. If you are not able to foster, you can still make a HUGE difference by spreading the word to everyone you know and help us find people that can foster!

No experience needed - our rescue partners will support you!

Contact us **TODAY** at info@philadoptables.org and we will put you in touch with a rescue in your area that will help you foster an animal from ACCT Philly.
